

Belle Santé Women Package

Early detection is key, and our packages offer the necessary screenings and services to ensure your well-being.

Screenings can help identify risk factors for various diseases, allowing women to take proactive steps to reduce their risk. Regular screenings can detect health conditions early when they are often more treatable and manageable. For example, mammograms can detect breast cancer in its early stages, potentially improving treatment outcomes.

Belle Santé Women Package

RM1,500

Operational Hours

Monday - Friday: 7.30am - 5.00pm
Saturday: 7.30am - 1.00pm
